

SESSION 2 - GENEROSITY PROFILES

SERIES BIG IDEA

We are genetically wired to be generous.

MESSAGE BIG IDEA

We're all wired for generosity, but we express it in various ways.

SCRIPTURE: 2 CORINTHIANS 9:6-7

ICE BREAKER AND OPENING THOUGHT

Use these questions to get the group talking and discussing how personal assessments have helped them become more aware of strengths, weaknesses, or how to work better with others or on a team. That will prepare the group to take the assessment found later in this guide.

BIBLE DISCUSSION

Read the scripture verses and get the group discussing the main idea of the passage. It may help to read the passage in a couple of translations. Help the group think through the various ways they've seen the passage play out in their lives. The second question opens up the possibility for generosity to be understood outside of the context of financial giving. That will set the group up well for the last section of the guide.

APPLICATION

We want everyone at COMMUNITY to take the Generosity Profile survey. A small group is the best context for this to happen because it provides a chance for immediate feedback, discussion, and encouragement. Remind people that this is a survey, not a test. It is designed to help individuals see their strength and growth opportunities as it relates to generosity. Help the group explore their profile and finish your time discussing how this profile might be a tool for personal development. Handouts of each profile are available for those who do not have access to a computer to take the test.
